

Little Brothers

Marion DeVore, Grade 7

Boise

Little, annoying and so much trouble
a little brother is like a puppy
chewing at your skin.
He's always around you,
showing you worms and bugs.
Hugging you with his dirty little hands.

But you must live with this childhood sibling.
What you should do is hug him back,
try to help him with things you don't want to do –
whether it's keeping the bugs,
or helping with endless videogames.

You may think there's an easy way out,
you're wrong.
No matter what, your little brother
will love you,
so love him back.

Your little brother could easily end up
being your best friend in life.
