Adrian Kien

I bore down from heaven
with a light so brilliant, the sun appears
to be a dark corner.

I live on as the earth
giving, taking, providing.

I continue on as a miracle
graciously comforting all of earth's
creatures.

I go on as land
doing what I can and must to keep
everything breathing.

I exist on as beauty
covering the earth with my extensive blanket of pureness.

I am life itself.
